AGRI MAX | 70.10

THE AGRI MAX EXCELLENCE ON A HUMAN SCALE

The characteristics of Dieci products can be summarised in three concepts that have always been the hallmark of each vehicle: **technology**, **reliability** and **durability**.

We work every day to evolve our machines, adopting the best solutions based on research, advice and experiences with our customers. Offering a range of telehandlers designed to suit Australia's diverse agricultural environments.

The **Agri Max** is a top-quality telehandler, categorised by its load capacity. Ideal for work environments where there is a need to handle large volumes and reduce work cycles. Maintenance is made easy thanks to durable components and materials that require replacement after several hundred hours of use.

Precision movements, manoeuvrability, maximum power at the wheels and boom, sound proofing, as well as the intelligently designed control layout, makes the Agri Max simple, intuitive and comfortable to use.

The Agri Max can be fitted with a full range of accessories, making it an **incredibly versatile** machine.

ABSOLUTE COMFORT: ITALIAN DESIGN AND STYLE

Dieci telehandlers have always been a combination of **comfort** and **functionality** which makes us stand out all over the world.

Advanced Telescopic Boom

Reinforced boom is made of high resistance steel with Load Sensing - Flow Sharing Distributors that offer simultaneous movements for more efficient work.

4-in-1 Joystick

The boom can be fully operated by the hydraulic control distributor-single joystick which also incorporates FNR, for easier and more practical direction control.

Easy Ride System

Developed by Dieci, the sophisticated air suspension system installed on the boom (optional), drastically reduces up and down movement when travelling over rough terrain.

Hydrostatic Transmission

Guarantees power, reactivity and control in manoeuvres, while a single control unit measures the optimal working parameters through in-depth diagnostics, displaying them in real time.

Maximum Safety

ROPS - FOPS approved cab, designed with safety cell to prevent deformation in the event of the vehicle being overturned or a heavy load falling on the cab. Dieci Telehandlers comply with AS1418.19 / 10896.1.

Deadman sensor, combined with the operator presence sensor in the seat, prevents accidental operation.

The **Load Limiter Device** analyses vehicle stability in real time and inhibits any aggravating movements when the pre-set safety limits are reached.

9.65m

Max Reach

7000kg

Max Capacity

93kW / 125hp

Fork Swivelling Angle (134° dump rotation)

Is specially designed to increase the operating arc, which is particularly useful when dumping with the boom raised.

Attachment Holding Plate

Counter-lever articulation for a greater tilting angle.

Single Compensation Cylinder

Patented by Dieci - is located inside the lifting ram, ensures that the load on the boom is balanced at all times, thereby improving durability.

Inching Pedal

An essential control that allows travel speed to momentarily slow down or come to a stop while still offering maximum power to boom functions to increase precision & productivity for delicate operations.

Perfect Climate

Semi automatic air conditioning system with 6 outlet vents allows perfect air circulation inside the cabin, openable rear glass and roof and integrated electric driver's window.

Comfort & Ease of Access

Spacious cab designed for operator comfort and ergonomics, adjustable steering wheel (height and depth), air suspension seat and storage compartments.

Panoramic Views

The large, curved windows of the cab offer a complete 360° outside view with uninterrupted visibility.

Side Shift Carriage

Equipped with side shift on the boom that allows you to shift the carriage from side to side to tightly pack loads.

Reversible Fan

The engine cooling system utilises a reversible fan to blow any dust and fibres away from the radiator.

130L Hydraulic Flow Rate

The 130lpm hydraulic flow maximises manoeuvrability in all applications.

TECHNICAL DATA

PERFORMANCE	
Machine model	AGRI MAX 70.10
Maximum capacity	7,000 kg (15432 lb)
Maximum lifting height on wheels	9.65 m (31.2 ft)
Maximum horizontal extension on wheels	5.40 m (17.7 ft)
Fork swiveling angle	134°
Pull-out force	5700 daN (12814 lbf)
Towing force	7300 daN (16411 lbf)
Maximum climb angle	40%
Unladen weight	12100 kg (26676 lb)
Max speed	Travel speed up to 40 km/h with 2 speed gearbox

ENGINE	
Brand	FPT
Nominal power	93 kW (125 HP)
@rpm	2200 rpm
Operation	4-stroke
Injection	Mechanical
Number and arrangement of cylinders	4, Vertical in line
Displacement	4485 cm³ (274 in³)
Consumption	230 g/kWh (378.35 lb/Hp h)
@rpm	2200 rpm
Emission standards	Stage IIIA/Tier 3
Cooling system	Liquid
Intake	Turbo compressor after-cooler

HYDRAULIC SYSTEM	
Hydraulic pump type	Gear pump for power steering and movements
Hydraulic pump capacity	130 L/min (34.3 gal/min)
Max. operating pressure	26.0 MPa (3553 psi)
Distributor control	4in1 proportional Joystick

TRANSMISSION	
Transmission type	Hydrostatic with variable displacement pump
Hydraulic motor	Hydrostatic with continuous automatic adjustment
Reversal	Electro-Hydraulic
Inching	With inching pedal for controlled forward movement
Transmission gearbox	Servocontrolled 2-speed

TYRES	
Standard tyres	445/65 R22.5

DIMENSIONS	
Machine model	AGRI MAX 70.10
A	440 mm (17.3 in)
B	1480 mm (58.3 in)
C	2950 mm (116.1 in)
D	1330 mm (52.4 in)
F	4820 mm (189.8 in)
G	5910 mm 323.7 in)
H	2940 mm (323.7 in)
I	940 mm (37 in)
L	1920 mm (75.6 in)
M	2380 mm (93.7 in)
O	4730 mm (186.2 in)
P	1700 mm (66.9 in)
Q	4400 mm (173.2 in)
T	100 mm (3.9 in)

LOAD CHARTS
