The heavyweight that's light on its feet.

1100 Vario MT

- Fendt iD technology
- World leading Vario transmission
- Automatically controlled hydraulic drawbar
- 4 individual suspension systems working together
- Smart ride + system with hydraulically operated self-levelling suspension – giving optimised suspension travel in both directions

NEW Fendt Vario MT: 380 - 673hp
Tracked Tractor Series

0.99% finance rate and
3 year/3,000-hour extended warranty*

The shape of progress.

Fendt Momentum

- Multiple configuration options to suit 12-18m tramlines
- Narrow transport width of 3.6m
- Fully equipped with Precision Planting Technology straight from the factory
- Patented Vertical Contouring Toolbar (VCT) maintains the optimum position for row units
- LoadLogic weight management system (optional)
- Automatic adjustment of tyre pressure via onboard inflation system

Fendt Connect One system. No boundaries.

Put real-time data at your fingertips with Fendt Connect. No matter where you are, you can track each machine's location, fuel, performance and service needs. Plus, fast-track any issues to optimise productivity.

Remote fleet management made easy

Better performance with optimised machine adjustments

Fast solutions with direct dealer support

Field management analysis helps you save on costs

Early error identifications minimise downtime

Your status doesn't need a symbol.
But if it did, it would be this.

Fendt IDEAL: 451 - 790hp Combine Harvester

- The most comprehensive warranty – 2 years, unlimited hour warranty across the range of combines and headers as standard
- Unmatched performance in varying crop conditions – industry's longest rotors mean more threshing and separation when you need it
- Unmatched visibility and operator comfort with IDEALdrive™ – exclusive joystick steering reduces operator fatigue and muscle activity by up to 65% – get out feeling fresh at the end of a long day

- Low daily maintenance – simple drivelines with fewer adjustments specifically designed to decrease the amount of time spent on maintenance and increase your time spent harvesting
- Streamer 210™ – it's not about how much you can harvest but it's how you handle it after the fact which is the real key to overall harvest productivity – the market leading Streamer 210™ allows you to do just that with a 17,100L grain bin and an unload rate of 210L/sec you can keep your operation moving

0.99% finance rate
and 2 year unlimited
hour extended warranty[^]

[^]Offer ends December 31, 2021, while stocks last. Finance with an interest rate of 0.99% p.a. applies to the combined purchase of a Fendt Ideal Combine Harvester with a Fendt Header. Finance of 1.49% available for the purchase of a Fendt Ideal Combine Harvester without the Header. Finance available on a Chattel Mortgage agreement based on a minimum 30% cash deposit, the GST component repaid in the fourth month and five annual repayments in arrears over a 54 months term with the first payment due after six months of settlement. Fees and lending conditions apply to approved ABN number holders who use the equipment for business purposes. Finance is approved by AGCO Finance Pty Ltd, ABN number 42 107 653 878.

Fendt SuperFlow header

- Unique transverse draper belts ensure head first feeding in all conditions
- Large 760mm table auger ensures even feeding in the biggest crops
- Autodock™ automatic header coupling – no need to get out of the cab to hook up your header

Fendt DynaFlex header

- Sizes up to 50ft
- Improved ground wheels for added stability and even cutting in high speed operations
- Autodock™ automatic header coupling – no need to get out of the cab to hook up your header
- Flexible cutterbar with over 20cm of vertical travel ensures the lowest cut over undulating ground
- New and improved feed center feed drum makes sure your combine is always full

Fendt Slicer FQ

- Trailing link suspension for the ultimate in flotation and contour following from a front mounted mower

Fendt Slicer TLX

- Centrally pivoting rear mower with hydro-pneumatic suspension and SafetySwing impact protection
- Over-centre folding for balanced transport position and excellent manoeuvrability

Fendt Lotus Tedders

- The original hook-tine design for unmatched tedding performance, producing evenly cured crops in fewer passes

Fendt Former Rakes

- Robust and efficient 2 and 4 rotor centre-delivery rakes for professional operators

Fendt Rotana Round Balers

- The benchmark in variable and fixed chamber balers
- HydroFlexControl rotor floor and Constant Pressure System for high throughput and density in all conditions

Fendt Rollector

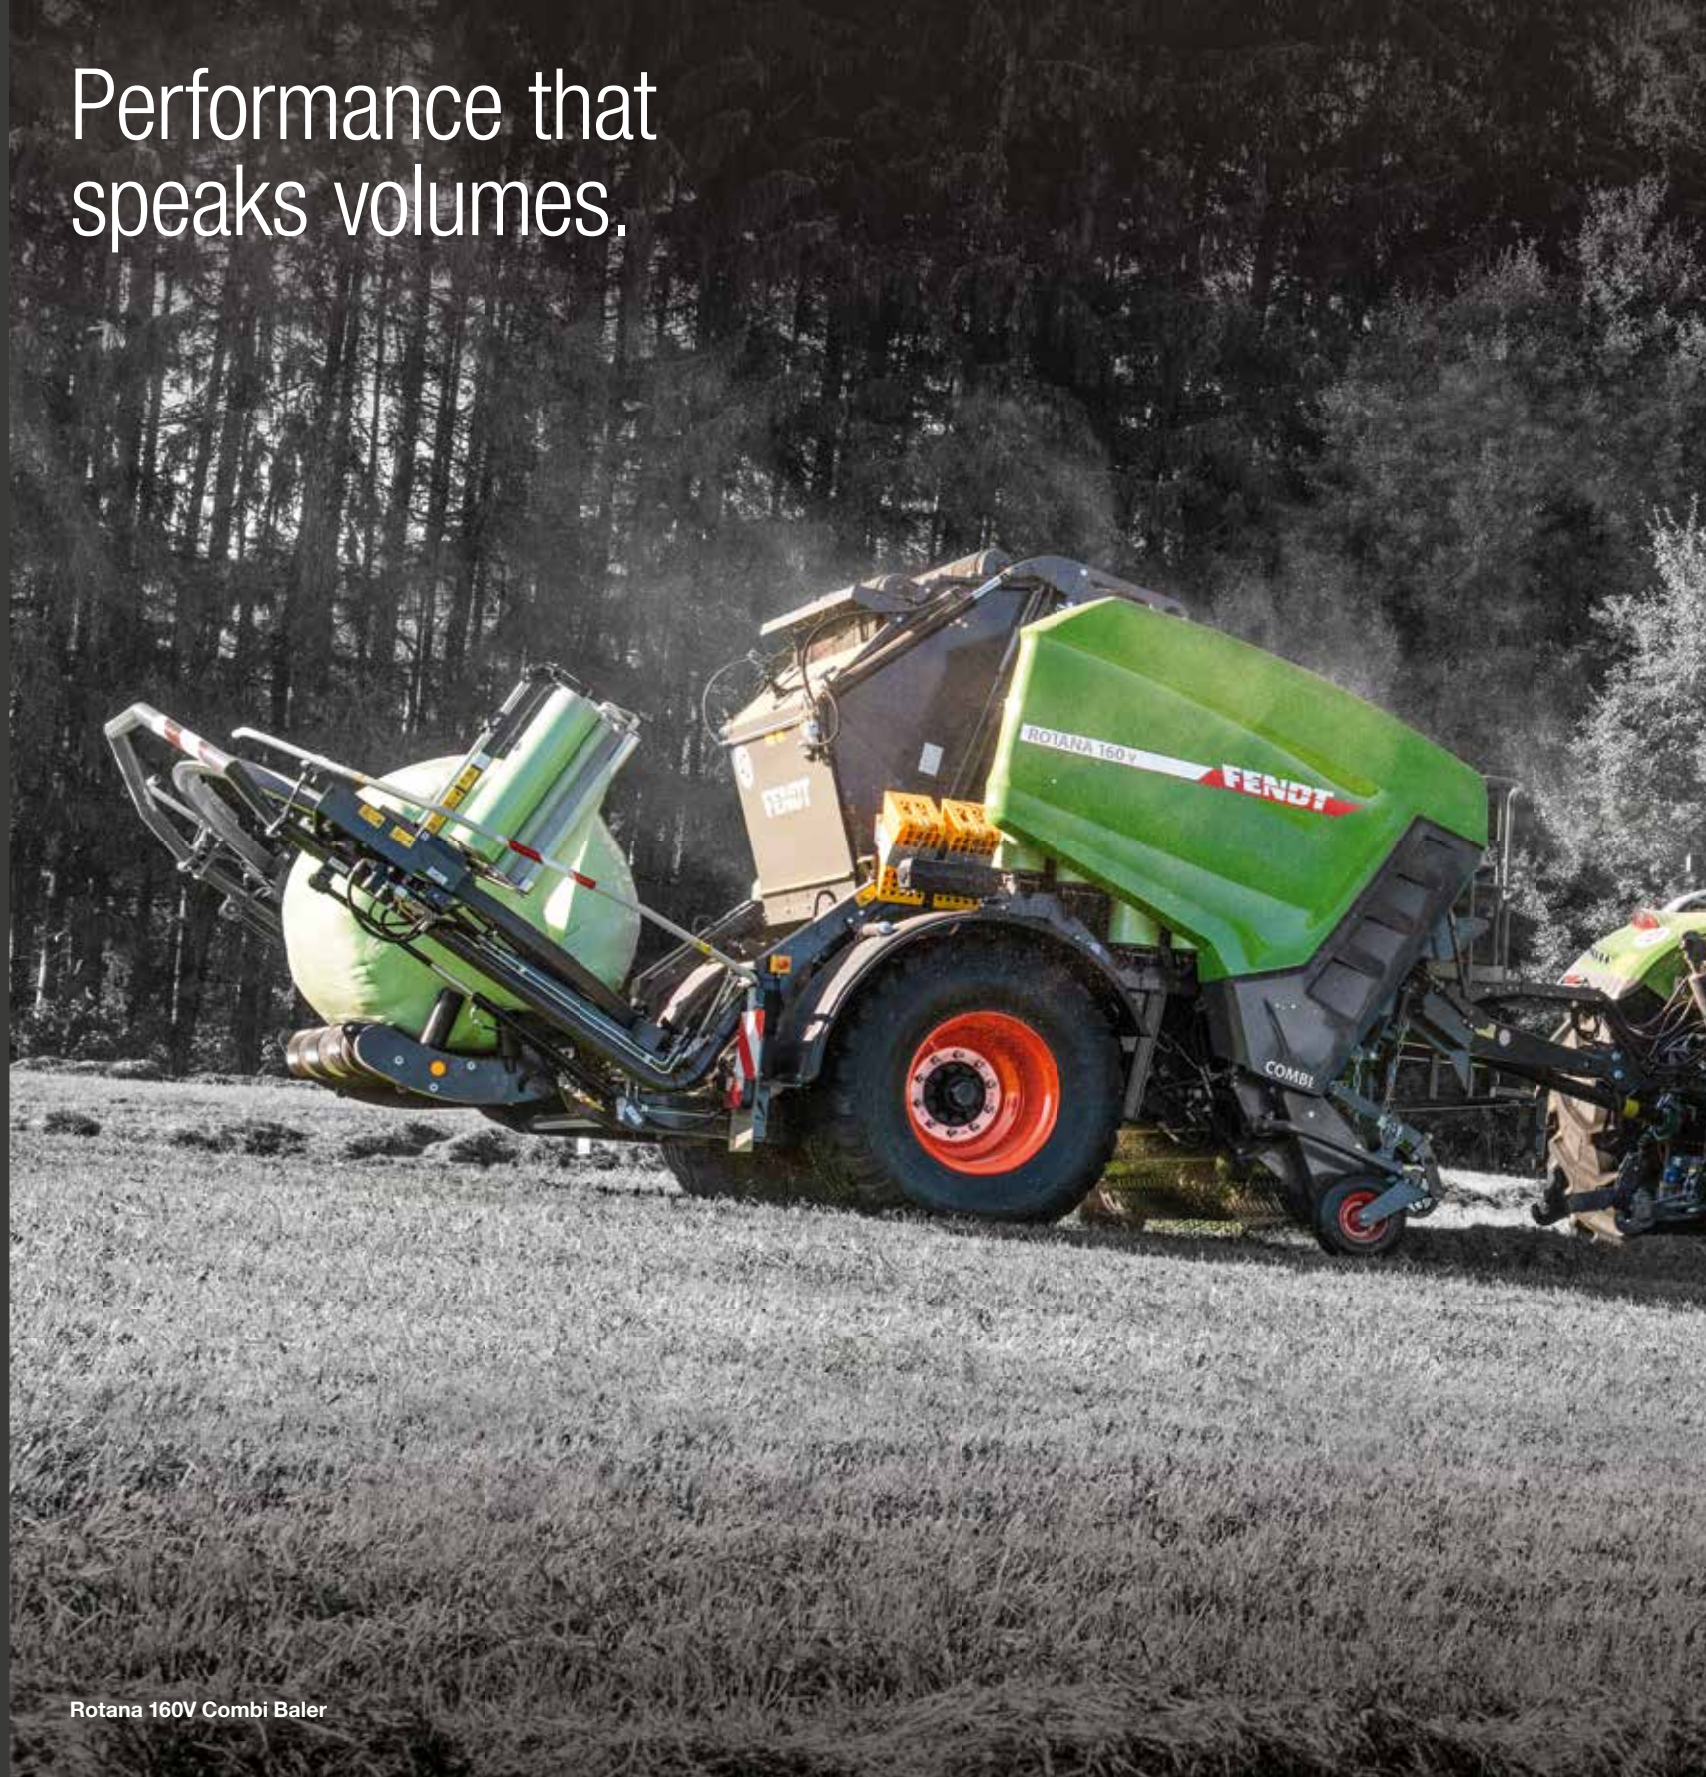

- Heavy duty trailed wrapper – perfectly matched to a solo baler output

Fendt Tigo Forage Wagons

- High capacity rotor feed forage wagons from 26m³ to 54m³ cargo volume

Slicer TLX

Rotana 160V Combi Baler

Former Rake
